ARE WE MAKING LOANS?

ABSOLUTELY!

Center Bank is making loans to credit-worthy customers on a variety of fronts. You may want to explore these opportunities:

HOME LOANS

Whether you are building or purchasing a home, see us now for a mortgage loan. Plus, we do refinances, home improvement and home equity loans.

BUSINESS LOANS

Look at these possibilities: commercial mortgages, commercial term loans, lines of credit, SBA loans, community commercial loan programs.

AG LOANS

Take your choice of several options for crops, land and animals.

PERSONAL LOANS

Check out our competitive rates for car, boat, snowmobile and other loans.

For more information and to set up an appointment, call 320-693-3255 to be connected with the appropriate loan officer or visit our website at www.cnbm.com.

SAFETY TIPS TO HELP KEEP YOUR MOBILE DEVICE MORE SECURE

DAVE DAEGES, CEO

- 1. Keep your mobile device up-to-date.** Similar to your home computer, mobile devices regularly need their operating systems and applications patched to defend against online threats such as viruses or malware.
- 2. Understand the risks of using wireless hotspots.** Limit the type of business you conduct when connecting to unsecured wireless hotspots. Only conduct banking and online shopping or other types of secure transactions on network connections that you know and trust.

3. Guard your money when banking or shopping online. Make sure the website is security enabled by looking for web addresses that begin with "https:" Secured sites provide additional security features for information sent and received and usually display a padlock. Websites beginning with "http:" are not secured. For Center Bank customers, utilizing your Secure Mobile Banking app is another good option to connect securely to perform your online banking.

4. Secure your device: Use a strong password or pin to lock your device and make sure to backup all of your data regularly.

5. Important information to consider before downloading a mobile app:

- **Credibility of the app's creator** – It is a good practice to use the approved "App Store" for your device. App stores offer operating system-specific downloads, so make sure you get the app that will work with your operating system.
- **What does the app do?** And what information does it collect and have access to? Does it make sense for the app to collect the information?
- **GPS location data** – If you have a smartphone and have downloaded an app that has permission to access your location data, it can do so until you change the settings on your smartphone. If you don't want to share your location with advertising networks, you may be able to turn off location services in your smartphone's settings.

The free, secure Center Bank mobile app is available for iPhone® or Android™ users. To read more about how to protect your mobile devices online, please visit the STOP. THINK. CONNECT.™ website which is a national security awareness campaign led by the Department of Homeland Security, the National Cyber Security Alliance, and the Anti-Phishing Working Group. They have security tips published for using the Internet at home or from a mobile device.

MEET OUR NEW PRESIDENT AL LIESTMAN
